

Hello!

Thanks for ordering a gift card from Zip Corvette!

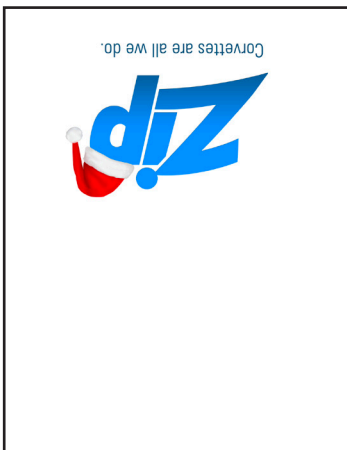

Here is a PDF of a Zip themed card for your gift.

If you do not have a printer capable of double sided printing, please follow the instructions below.

1. Print out both pages, Page 1 & Page 2.
2. For Page 1: Page 1 is face up so you can see the Zip logo. The Zip logo will be upside down at the top of the page.
3. For Page 2: The Gift Card Message will be at the bottom of the page. Take Page 2 and flip it over so you can not see the Gift Card Message.
4. Align the pages so Page 1 is on top of Page 2. The Zip logo will be upside down facing you.
5. Staple or tape the pages together so they are now one sheet of paper.
6. Fold paper in half so the Zip logo is now facing right side up when you fold it, and The Gift Card Message is now on the inside of the card.
7. Sign your name on the card or add your personal touch for the gift receiver.
8. Place your Gift Card or Digital Gift Card inside the card you constructed.
9. Give the card to the receiver.
10. Enjoy a job well done!

Align the pages like below, one on top of the other, attach together, then fold in half.
