

Corvette C6 Floor Mat Anchoring Devices

Hook Anchor - Late Production 2007

Post Anchor - 2005 Through Mid Year 2007 Production

General Motors has made a change to the floor mat anchoring device in 2007 Corvette models. The images above show the two different pre-installed anchors now appearing in 2007 Corvettes.

In order to supply the correct floor mats for your Corvette, please identify the device found in the floor of your vehicle as either the “Hook” or “Post” anchor.
