

# 1973-1979 Vacuum Hose Kit for Headlights

Product # ZHDL-218

## Installation Instructions

1. It is best to replace hoses one at a time using the diagram and color codes supplied. Hoses can be trimmed to desired length once installed correctly.
2. Hoses 6, 8 & 9 connect to the small T-pipe in which the outlets are all the same size.
3. Small T-pipe with different size outlets: Two larger outlets connect 3 & 7, small port connects heater/AC vacuum control hose.
4. Hoses 6 & 7 pass through the same firewall grommet.
5. Vacuum lines running together were taped on approximately 6" centers. Refer to your old hose harness. New tape is provided in the kit.
6. Headlight & wiper door actuator relays are color and letter coded R=Red, Y=Yellow & G=Green. To install, connect outer hoses first and then install center hose.
7. Two straight connectors are provided for ease of installation under the dash. They install behind the firewall grommet.
