

# Performance-Tuned Corvette C5 Composite Leaf Springs

***Computer Designed, Track Tested and Race Proven***

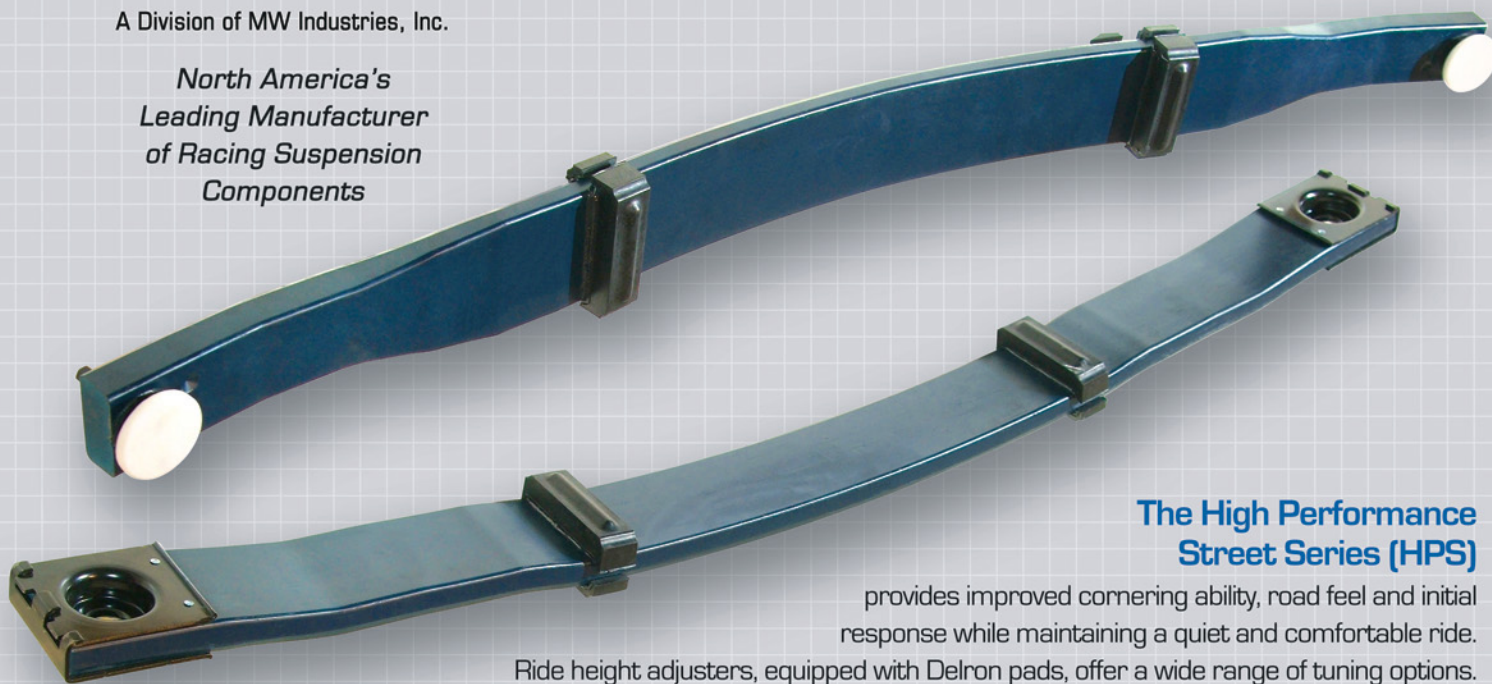

**HYPERCO**

A Division of MW Industries, Inc.

*North America's  
Leading Manufacturer  
of Racing Suspension  
Components*

Hyperco Performance-Tuned Corvette C5 Composite Leaf Springs enable the serious Corvette owner to select the suspension performance level they desire for their car.

***Available for both Street and Track***

## **The High Performance Street Series (HPS)**

provides improved cornering ability, road feel and initial response while maintaining a quiet and comfortable ride.

Ride height adjusters, equipped with Delron pads, offer a wide range of tuning options. This enables the C5 owner to set the look and handling of the car to their preference... mild to aggressive.

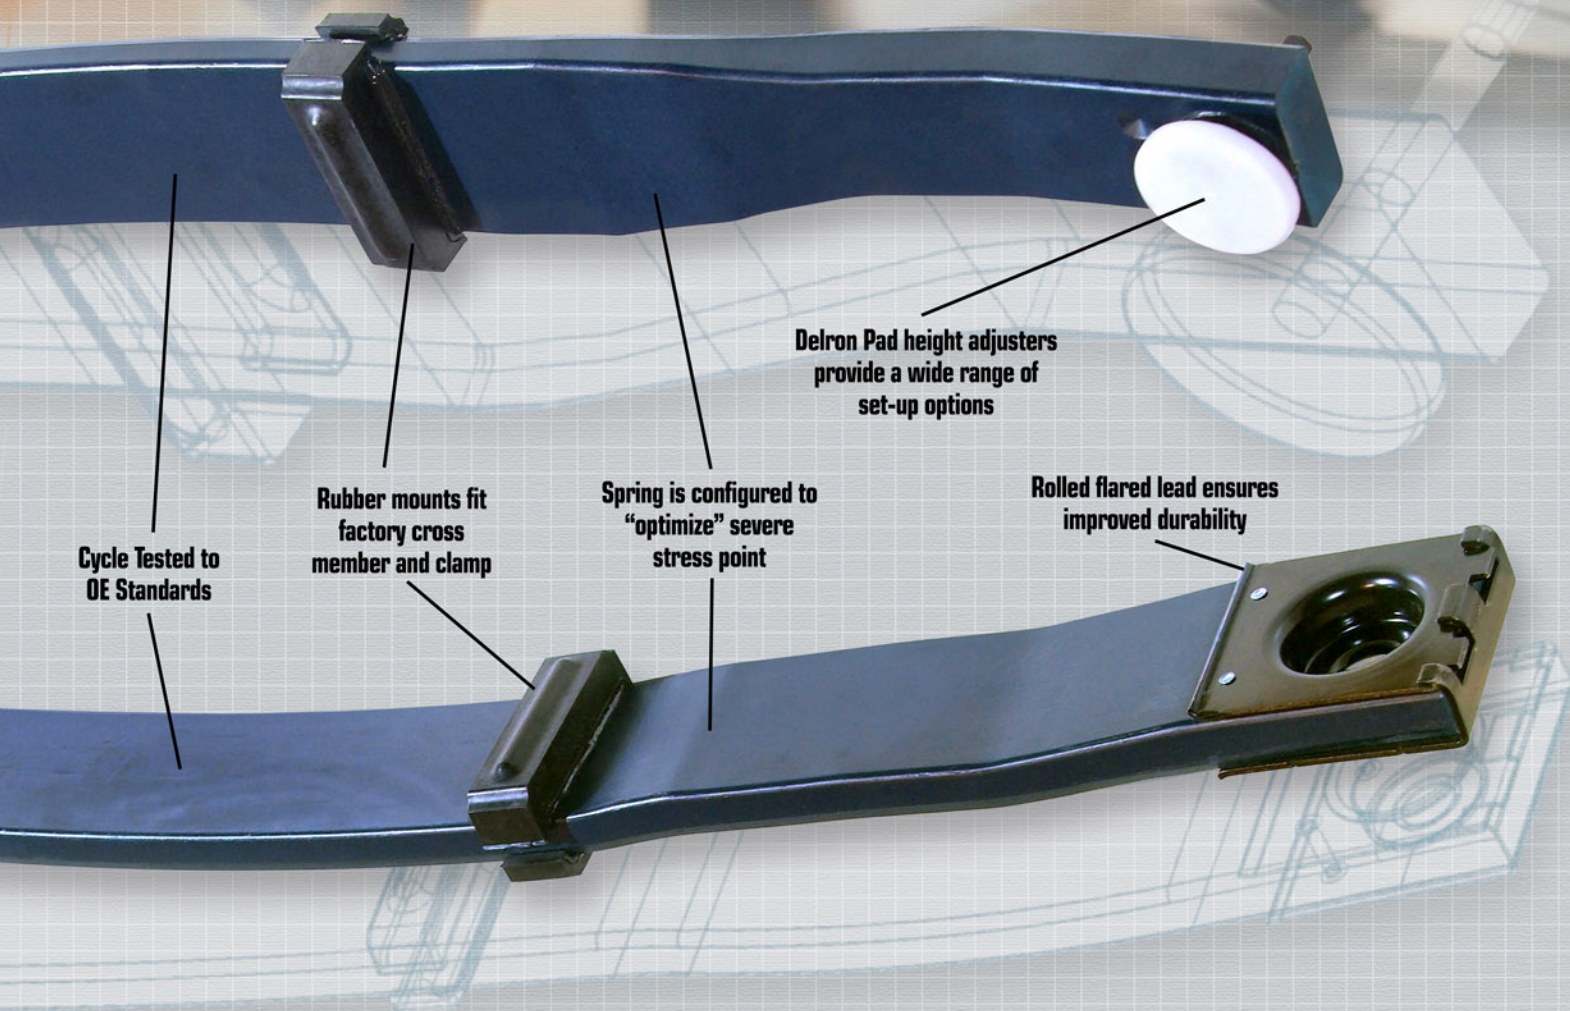

## **The High Performance Track Series (HPT)**

offers the C5 owner a "race-ready" spring rate option for auto crossing, track days and competitive racing.

The Delron pad-equipped height adjusters support a wide range of set up choices, enabling the car to be tuned for all out performance.

# *"From LeMans to Mid-Ohio to Main Street U.S.A..."*

Cycle Tested to  
OE Standards

Rubber mounts fit  
factory cross  
member and clamp

Spring is configured to  
"optimize" severe  
stress point

Delron Pad height adjusters  
provide a wide range of  
set-up options

Rolled flared lead ensures  
improved durability

## **HPS STREET SERIES SPRINGS**

| Part # | Racer Net |
|--------|-----------|
|--------|-----------|

|                              |             |
|------------------------------|-------------|
| <b>FRONT:</b> 12405HPS ..... | 549.00 each |
|------------------------------|-------------|

|                             |             |
|-----------------------------|-------------|
| <b>REAR:</b> 12406HPS ..... | 549.00 each |
