

## Blockit DeadMat C6 & C7 “Behind Seat” Add On Kit

---

This kit is designed for those who already have the Blockit Quick & Quiet 3 piece pre cut “drop in” system, but want the next level of quiet.

Achieve even more of a pleasant ride in minutes! Simply cut and place the DeadMats under the factory carpet behind the seat area. The carpet behind the seats easily lifts right up!

The combination of both products is fast and effective! It really helps take it to the next level of quiet!

Blockit DeadMats use a unique technology to eliminate unwanted vibration & noise in your vehicle. It's not your typical mass loaded vinyl. The light weight mats are a highly damped proprietary mineral filled viscoelastic polymer which provides outstanding sound & vibration reduction. At only .445 lbs a sq ft, the **Performance to weight ratio is amazing!**

The bottom line is The Blockit Dead Mats are designed to simply not vibrate!

This kit contains enough material to cover the area behind your seats. It helps knock down more interior noise from tires/road & exhaust! It adds to cooling down the interior.
