

## INSTALLATION INSTRUCTIONS INTRO-TECH TOP / COCKPIT COVERS

Custom top / cockpit covers are an excellent way to protect your car from damaging Uv rays, airborne dust or debris, and droppings from bird and near by trees. They install quickly and fold up conveniently into their own storage bag. All covers install securely under your trunk lid to deter theft.

### Corvette cover

#### Installation instructions:

1. Locate label marked front on cover and place cover over the roof of the car with the label on the windshield.
2. Place fabric under the front windshield wipers, and attach cover using the two Velcro straps provided.
3. Attach two more Velcro straps around the cars side mirrors.
4. Secure the elastic straps to the bottom of the driver and passenger side doors.
5. Open the trunk lid. Attach the two rear straps to the bump stops in the left and right rear corners of the trunk. Close trunk.
